## SOFTWARE ENGINEER

BSIT graduate from City College of Tagaytay with strong skills in software development, particularly in creating web-based systems. Excellent problem-solver with a passion for continuous learning and teamwork. Seeking an entry-level software engineering position to apply technical expertise and contribute to innovative IT projects.

### SKILLS

HTML 5    JAVASCRIPT    PHP    REACT  
CSS 3    BOOTSTRAP    MYSQL    TAILWIND

### KEY COMPETENCIES

Web-based System Development    Problem-Solving  
Database Management    Continuous Learning  
Software Development    Team Collaboration

## PROJECTS

### Capstone Project

#### Web-based School Form Management System (Programmer)

The Web-based School Form Management System is a cutting-edge solution designed to streamline and enhance the management of academic forms within educational institutions. This user-friendly platform allows for the efficient creation, submission, tracking, and storage of various school forms, eliminating the need for cumbersome paper-based processes. Key features include real-time access to forms, secure data handling, and automated workflows, which significantly reduce administrative workload and increase productivity. With its intuitive interface and robust functionality, this system ensures accuracy, improves communication, and fosters a more organized and efficient school environment.

## EDUCATION

### City College of Tagaytay

Bachelor of Science in Information Technology  
2024
